Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Atty. Noblitt discussed a more specific interpretation for the claim language "substantially secure engagement" and indicated that applicant intended it to mean "secured with no possible movement in both the first and second positions. Examiners raised doubt as to whether drawings and specification support this interpretation of the claim. Claiming the pull rod and pull rod receiving portion more specifically were discussed as possible changes to improve the claims, but no new claim language was approved.
